ELECTION

CANDIDATE SURVEY

Please return by September 16, 2022.

2022
ELECTION

What are your three top priorities if you get into office and how will you accomplish them?

1. Restore confidence in Georgia's Election system by hand counting paper ballots with full public transparency, enforcing signature match for absentee ballots, verifying voter ID, allowing public audits.
2. Return the Voter Registration Data Base to state control, end the contracts with Election Registration Information Systems, SalesForce and MTX Group, maintain clean voter rolls with the National Change of Address system and the Social Security Association Death Registry.
3. Require that any voting system complies with all applicable laws, including Cyber and Infrastructure Security Act, Federal Information Security Modernization Act, Help America Vote Act, Voting Rights Act, and Title 21 of the O.C.G.A., which our current system does not.

Instead of bipartisanship, how will you increase cooperation and bring people together?

In sharing my firm position that voting is a non-partisan issue, insisting on strict compliance with constitutional principals, and the law I will rally support using the truth to dispell the mis-, dis, and malinformation campaigns used by the partys and the media to sew division, distrust, and discontent in the hearts and minds of Americans. Brutal honesty about the source and the motivation of the rhetoric foist upon us and garning agreement on the solutions is how I will bring people together.

Do you support increase in any taxation?

YES NO

Do you support parental rights in education?

YES NO

Do you support township's control over public schools?

YES NO

Do you support township's control over elections?

YES NO

Each candidate's replies will be published exactly as answered. Replies will be available on:
